WENDAYEW FKADU

FULL-STACK DEVELOPER

Dire Dawa, Ethiopia | +251 947506440 | wen1260h@gmail.com

PROFESSIONAL SUMMARY

Full-stack developer and fourth-year Dire Dawa University student with practical project experience building web applications and solving real-world workflow problems. Familiar with TypeScript, Node.js, PostgreSQL, and Docker, with an interest in developing useful, maintainable applications from frontend interfaces through backend services and data storage. Motivated to keep learning and contribute to collaborative software teams.

TECHNICAL SKILLS

Programming	TypeScript, JavaScript
Backend	Node.js, REST API development concepts
Database	PostgreSQL, relational data modeling concepts
Tools	Docker
Development	Full-stack web development, debugging, application integration

SELECTED PROJECT

CONSTRUCTION GEBYA — Construction Marketplace & Auction Platform

Full-Stack Development Project

A digital platform concept designed to connect contractors, construction-material suppliers, and transporters through an auction-based workflow, helping participants discover opportunities and coordinate construction-related services in one place.

- Developing a multi-sided platform that brings contractors, suppliers, and transport providers together.
- Applying auction-based workflows to support the listing of needs or offers and competitive participation.
- Working with a TypeScript and Node.js application stack, PostgreSQL for structured data, and Docker for containerized development.
- Focusing on clearer communication and a more organized process for sourcing construction materials and transportation.

EDUCATION

DIRE DAWA UNIVERSITY

Undergraduate Student — Fourth Year

Dire Dawa, Ethiopia

LANGUAGES

Amharic — Fluent | **English** — Working proficiency

PROFESSIONAL STRENGTHS

Problem-solving • Learning agility • Team collaboration • Practical product thinking
